PROFESSIONAL EXPERIENCE

Small Business Owner**Denton & Denton Environmental, LLC**

Environmental consulting business started August 2007, specializing in Forest Service and BLM Land and Resource Management Planning requirements, and the Forest Service and BLM Northwest Forest Plan. See dad-env.com for more details.

Klamath National Forest (Forest Service). *September 2007 – April 2009 (projected)*

The Klamath National Forest in Northern California is writing an environmental impact statement for the Eddy Reserve to maintain habitat for the Northern Spotted Owl. My responsibilities include:

- Creating the project record database, and training the rest of team to use;
- Creating a mailing list database to track interested members of the public; and
- Creating and maintaining a tracking database for comments from the public

Writer – Editor and Database Manager**PBS Engineering and Environmental****BLM Oregon State Office / Forest Service Region 6 Office.** *March 2006 – August 2007*

One of the two-person team for the 2007 BLM/FS Survey and Manage Environmental Impact Statement.

- Authored several sections of the document and edited the entire 1100 page document;
- Created and maintained the Administrative Record, including the electronic index;
- Coordinated the writing of the 10 scientists contributing to the project;
- Created and maintained a tracking database for public comments and prepared many of the written responses;
- Typeset the document; and
- Created and maintained a database of about 1200 interested members of the public.

Logistician-Administrator**Médecins du Monde - France****Mallavi, Sri Lanka.** *February 2005 – June 2005*

Médecins du Monde (*Doctors of the World*), a French non-governmental organization (NGO), implemented an emergency medical relief program in Sri Lanka following the December 2004 tsunami. I was one of two non-medical team members.

Logistics: Helped plan and initiate the restoration of a 40 bed regional hospital:

- Responsible for oversight of project planning, purchasing, and bidding.

Administration: Responsible for all aspects of administration, including:

- The creation of all administrative procedures and documents;
- Human Resources: hiring, contracts, salaries, and direct supervision of 18 non-medical national staff;
- Financial oversight, including all accounting and budgeting; and
- Communication with local government and project partners, regional NGOs, and MDM headquarters (in France).

Information Manager and Archivist**Other Minds****San Francisco.** *December 2001 – October 2003*

Other Minds is a 5 person non-profit promoting new and experimental music. They hold a major music festival once a year, run a record label, put out a newsletter, hold a music film festival, and have an online radio station.

- Responsible for many aspects of festival management and planning. Organized musicians, composers, staff, and volunteers. Coordinated donors, board members, the press, and the arts

- community. Managed and coordinated festival logistics and all ticketing;
- Responsible for OM's extensive audio archives, including 10,000 reel-to-reel tapes and CDs. Wrote and administered an online database in MySQL and PHP;
- Created a web radio station (<http://www.radiOM.org>) that plays the archives to a worldwide audience. Researched and set up web servers and streaming audio servers;
- Managed 30 part-time volunteer audio engineers and 10 data entry volunteers;
- Created and maintained the radio, music, donor, mailing, film, and image databases;
- Administered a mixed network of Macs and PCs;
- Wrote official correspondence, articles for newsletters, and documentation for just about everything;
- Designed posters, brochures, flyers, websites, etc for events;
- Listened to, researched and reviewed music submissions; and
- Edited digital sound files for grants, CDs, or the radio station.

Web/Database Engineer and Release Engineer

Nolo.com

Berkeley, CA. *June 2000 – May 2001*

- Wrote programs for publishing data to the organization's website; and
- Produced a 4000 page website weekly.

Web/Database Engineer/ Beta Technical Team Lead

Intuit Software

Mountain View, CA. *May 1997 – May 2000*

- Managed a team of 5 people whose role was to build and maintain databases and web applications that were used both for tracking the 60,000 beta testers and running 20 or more beta tests per year on products such as Quicken, QuickBooks and TurboTax;
- Designed and implemented the call tracking system currently in use by Intuit technical support team and call center;
- Designed and implemented a customizable beta test template system that allowed departments to create and run web based beta tests;
- Coordinated upgrade and migration of databases from MS Access to SQL Server; and
- Provided training for call center employees on using the call tracking system.
