PROFESSIONAL EXPERIENCE

Logistics Coordinator

Médecins du Monde, Paris, France

Mullaitivu, Sri Lanka. Jan.- Jun. 2005

- Coordination of in-country logistics for emergency medical relief following the December 2004 tsunami (two project locations, 12 overseas volunteers).
- Identification, evaluation, and establishment of a long-term program to support a 40-bed peripheral hospital in the conflict affected areas of the north.
- Planning and initiation of major restoration and improvements to hospital buildings and infrastructure.
- Responsibility for all logistical activities for the northern project including rehabilitation work, transport, procurement, storekeeping, and security.
- Recruitment and supervision of a local team of 17 non-medical staff.

Head of Program

Initiative Développement, Poitiers, France

Guizhou, China. Apr. - Nov. 2002

- Responsible for the implantation of a long-term community-based integrated rural development program for an NGO with no previous presence in China.
- Negotiation and partnership building with government institutions and civil society at the provincial and local levels.
- Participatory evaluation of local needs and definition of program goals and strategy for a two-year period.
- Preparation of a program to provide drinking water to a population in excess of 7,000 persons and implementation of a community-based pilot project.

Apr. – May 2003

- Coordination of the launch of the full-scale program.

May - Jul. 2004

- Field research to evaluate rural education services and needs among remote farming populations in one of China's most impoverished regions.
- Identification of strategies to integrate pilot education projects into existing community development projects in nearby areas.

General Coordinator

Médecins du Monde, Paris, France

Kabul, Afghanistan. Feb. - Apr. 2002

- Coordination of a program of support for 4 clinics providing primary maternal and child healthcare services in the Kabul urban area.
- Responsibility for overall program management and daily oversight of 17 national and 4 international staff.
- Definition of future program orientations, fundraising, and coordination with governmental, international, and NGO partners.

Administrator-Logistician

Médecins du Monde, Paris, France

Darwin, Australia, and Timor-Leste. Oct. 1999 - Feb. 2000

- Responsible for a logistics base for a major emergency medical program in East Timor.
- Overall management of Australian operations including procurement, transport, financial accounting, and relations with partner organizations.

Qinghai Province, China. Sept. 1997 - Mar. 1999

- Preparation and establishment of a township level community health project for a rural Tibetan population.
- Responsible for all aspects of administration, logistics, and relations with the local population and Chinese authorities.

Heilongjiang Province, China. Aug. - Sept. 1998

- Coordination of a short-term program of emergency assistance to populations affected by major flooding, in partnership with the Heilongjiang Provincial Red Cross.

West Papua, Indonesia. May - Jun. 1998

- Exploratory mission to West Papua (Irian Jaya).
- Preparation of a project of emergency medical assistance to a district level public-health system within the context of a regional drought and a national economic crisis.

Beijing, China. Apr. 1998

- Study of logistics for the support of medical programs in North Korea.

Kampala, Uganda, and Goma, Democratic Republic of the Congo. May - Aug. 1997

- Responsible for a logistics base for humanitarian operations for the Great-Lakes region.
- Long-distance management of a medical program in northern Kivu, D.R.C.
